

Coding is practice... Practice your HTML Code, with help of following steps, which will give you a clear understanding about HTML Grouping Element.

Challenge 1:

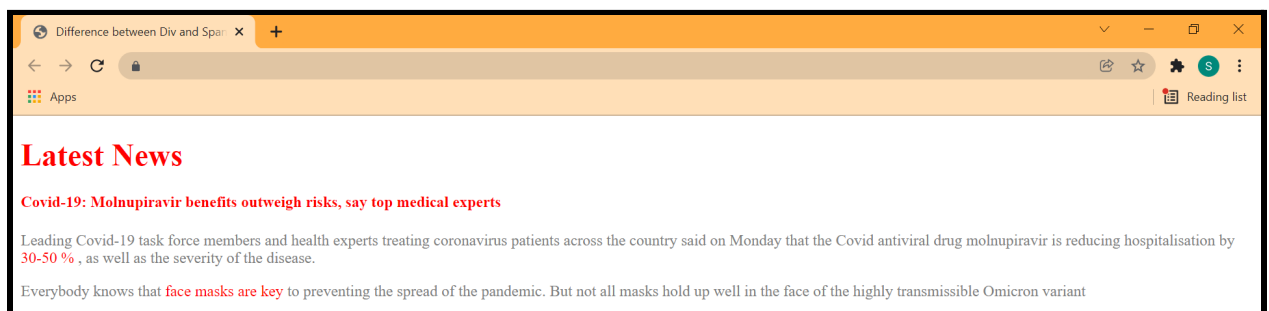

Steps:

- Open VS code.
- Select New File in the opened folder...
- Save the file in the appropriate folder/ create the folder and save the file with extension.
- Copy and Add the below given html code in the file.

```
<!DOCTYPE html>
<html>
  <head>
    <title>Difference between Div and Span</title>
    <!--Apply styles using the class names this is known as class selector, you
will learn about this in detail -->
    <!-- Same style is applied to class header and highlights-->
    <style>
      .header, .highlights{
        color: red;
      }
      .content{
        color: grey;
      }
    </style>
  </head>
  <body>
    <!-- the main class encapsulates header and content divisions, if any style
is applied to main class then those styles will be applicable to header and
content divisions-->
    <div class="main">
      <!-- header class division-->
      <div class="header">
        <h1>Latest News</h1>
        <h4>Covid-19: Molnupiravir benefits outweigh risks, say top medical
experts</h4>
      </div>
      <!-- content class division-->
      <div class="content">
```

```
<p>
    Leading Covid-19 task force members and health experts treating
    coronavirus patients across the country said on Monday that the Covid antiviral
    drug molnupiravir is reducing hospitalisation by
    <!-- the span is included inside the paragraph and a seperate style is
    applied to it-->
    <span class="highlights"> 30-50 % </span>, as well as the severity of
    the disease.
</p>
<p>
    Everybody knows that
    <!-- the span is included inside the paragraph and a seperate style is
    applied to it--><span class="highlights">face masks are key </span> to
    preventing the spread of the pandemic. But not all masks hold up well in the
    face of the highly transmissible Omicron variant
</p>
</div>
</div>
</body>
</html>
```

- View the file in the browser, by right click on the file name in the left pane.
- View of file in browser.

Challenge 2:

Steps:

- Open VS code.
- Select New File in the opened folder...
- Save the file in the appropriate folder/ create the folder and save the file with extension.
- Copy and Add the below given html code in the file.

```
<!DOCTYPE html>
<html>
<head>
  <!--Title of the web page-->
  <title>DIV and SPAN</title>
  <!--styles given using the class name of the divisions-->
  <style>
    .main{
      text-align: justify;
    }
    .highlights{
      color: red;
      font-weight: bold;
    }
    .content{
      background-color: lightblue;
    }
    .table{
      background-color: lightgreen;
    }
    .lists{
      background-color: lightpink;
    }
  </style>
</head>
<body>
  <div class="main">
    <div class="content">
      <!--Content with highlights-->
      <h1>Running Champions</h1>
      <p>In our school we conducted <span class="highlights">Intra school
Running competitions</span>, where students from all school participated. Some of
our student have won the competition. List of students<span class="highlights">
```

```

who won the competitions </span> are as follows:</p>
</div>
<div class="table">
  <table border="1" style="width:30%">
    <!--Header row-->
    <tr>
      <th colspan="2">Name</th>
      <th>Grade</th>
    </tr>
    <!--Data row 1-->
    <tr>
      <td>Jill</td>
      <td>Smith</td>
      <td>4</td>
    </tr>
    <!--Data row 2-->
    <tr>
      <td>Eve</td>
      <td>Jackson</td>
      <td>7</td>
    </tr>
  </table>
</div>
<div class="lists">
  <p>Rank of winners can be seen in the following list</p>
  <ol>
    <!-- ordered list-->
    <li>Jack Wills</li>
    <li>Jill Smith</li>
    <li>Mark William</li>
    <li>Eve Jackson</li>
  </ol>
</div>
</div>
</body>
</html>

```

Running Champions

In our school we conducted **Intra school Running competitions**, where students from all school participated. Some of our student have won the competition. List of students **who won the competitions** are as follows:

Name	Grade
Jill Smith	4
Eve Jackson	7

Rank of winners can be seen in the following list

1. Jack Wills
2. Jill Smith
3. Mark William
4. Eve Jackson

Challenge 3:

With your new gained knowledge on HTML `<div>` and `` tags prepare a simple portfolio web page.

Sample output:

Hi I'm Kunal

About me

Thanks for visiting my web page. My name is Kunal. I've completed my graduation in the year **2019** in the stream **Electronics and Communication Engineering** in **IIT Roorkee**.

My Experience

Right after my graduation I started my carrer as a **Software Engineer**. As a Software Engineer I've a work experience of 2.8 years.

My Skill set

1. HTML, CSS, JS
2. React
3. Python Flask
4. Database

My hobbies

- Drawing
- Photography
- Design
- Programming
- Computer Science

Process for Submission

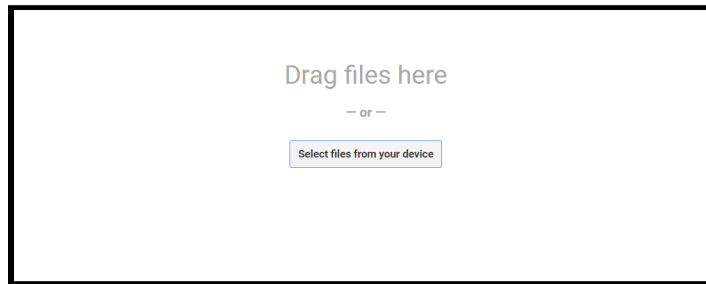

Please upload your assignment file via this [Google Form](#)

Steps to submit the assignment:

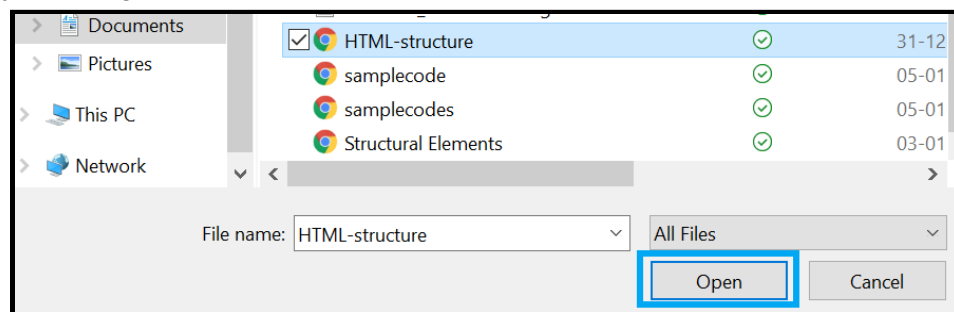

1. Open the [Google Form](#).
2. Enter your email id, name, assignment name.
3. And upload the assignment file by clicking the Add file button.

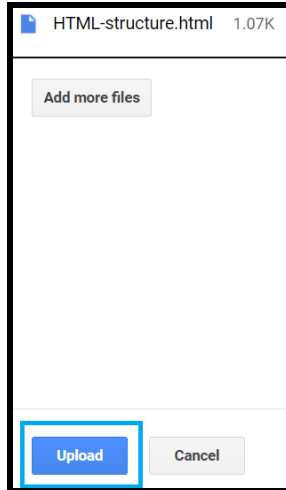

4. You can upload the file by clicking **Select file from your device** or by dragging the file and dropping it in the window opened.

5. Select your assignment file and click the **Open** button.

6. After selecting the file click on the **Upload** button.

7. Once the file is uploaded, click on the Submit button.
