Structural elements

Problem statement:

With your new gained knowledge on HTML elements, attributes, comments and styles create a newspaper article that has

- Headings.
- Subheadings.
  - Add font colors to the subheadings.
- Paragraphs
  - highlight important words in the paragraph as bold.
  - add breaks in paragraphs.
- Comments.

Solution:

```
<!DOCTYPE html>
<html>
 <head>
   <title>NEWS</title>
 </head>
 <body>
   <h1>Latest News</h1>
   <h4 style="color:blue">Covid-19: Molnupiravir benefits outweigh
risks, say top medical experts</h4>
   <p>Leading Covid-19 task force members and health experts treating
coronavirus patients across the country said on Monday that the Covid
antiviral drug favipiravir is reducing hospitalisation by 30-50 %, as
well as the severity of the disease.</p>
   <h4 style="color:blue">What type of mask provides best protection
from Omicron</h4>
   <p>Everybody knows that face masks are key to preventing the spread
of the pandemic. But not all masks hold up well in the face of the
highly transmissible Omicron variant</p>
 </body>
</html>

Covid-19: Molnupiravir benefits outweigh risks, say top medical experts

Leading Covid-19 task force members and health experts treating coronavirus patients across the country said on Monday that the Covid antiviral drug molnupiravir is reducing hospitalisation by 30-50 %, as well as the severity of the disease.

What type of mask provides best protection from Omicron

Everybody knows that face masks are key to preventing the spread of the pandemic. But not all masks hold up well in the face of the highly transmissible Omicron variant
